

Since the very beginning of her teaching career, Nancy Egbert demonstrated skill, leadership, and a unique ability to positively impact the children fortunate enough to be in her classroom. After graduating from Northern Michigan University in 1967 with a B.S. in education, she established herself as a versatile educator, teaching subjects ranging from journalism and business education at the high school level to reading, math and social studies to elementary school students. In 1984, Nancy Egbert tallied another achievement to her résumé when she obtained a certification in elementary education from Michigan State University.

In 1986 she was hired at St. Gerard's, a Catholic school in Lansing, as a second grade teacher, where she has served since. Her subsequent twenty-five year commitment to molding young minds during their most formative stage is in itself a testimony to her passion and commitment to high-quality religious education. It is in no small part thanks to her hard work that St. Gerard's has won the prestigious Michigan non-public school accrediting association (MNSAA) award for excellence for 2009–2010.

Throughout her time as an educator in Michigan, she has helped shape countless young lives, serving as a role model and leader in religious education. I commend Nancy Egbert on her dedication to education and her students. She is to be applauded for her continuous contribution to the state of Michigan and the lives of our children.

#### URGING PREVENTION OF ATTACKS AGAINST FEDERAL EMPLOYEES

SPEECH OF

**HON. LAURA RICHARDSON**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 11, 2010*

Ms. RICHARDSON. Mr. Speaker, I rise today in support of H. Res. 1187, which recognizes Federal employees for their outstanding service to our Nation and stresses the importance of promoting their safety and security while they are at work. H. Res. 1187 is an important measure that raises public awareness in regards to both the excellent work performed by Federal employees and the need to protect them on the job.

I thank Chairman TOWNS for his leadership in bringing this bill to the floor. I also thank the sponsor of this legislation, Congressman MORAN, for recognizing the importance of seeking ways to improve the safety and security of Federal employees.

Federal employees work long hours every day to ensure that Government is working for the American people. In return, we must do what we can to show our appreciation for their service. This includes ensuring their safety while at work. Unfortunately, recent events show that we can do more.

Mr. Speaker, as Chairwoman of the House Committee on Homeland Security's Subcommittee on Emergency, Communications, Preparedness, and Response, I am particularly attuned to the threats facing our Federal employees. Between 2001 and 2008, more than 1,200 attacks have been made on Internal Revenue Service (IRS) buildings. The February 18, 2010 attack on the Austin, Texas

IRS building claimed the life of two-tour Vietnam veteran Vernon Hunter. The March 4, 2010 shooting that injured two Pentagon guards represented the fourth attack or security scare on a Federal building in 2010.

These unfortunate events show that we must adopt a heightened focus on protecting Federal employees and securing Federal workplaces. Additionally, we should also be grateful for the service of the state and local government employees throughout the country and work to ensure that they, too, are safe at work. As the representative of thousands of state and local government employees, I understand the importance of the work they perform to ensure that our states and cities are run fairly and efficiently. We must be dedicated to their workplace safety.

In addition, these attacks should also serve as a reminder of the need to enhance our security efforts not only for government employees, but for all Americans. The areas in and around my district contain multiple infrastructure sites of national importance, such as the Port of Long Beach, the Gerald Desmond Bridge, and the Alameda Corridor. Due to the constant flow of goods through these sites, they are vulnerable to attack and intentional sabotage. We must enhance our national security efforts to ensure that these sites, and the hundreds of others across the country, are secure and that the American people are safe.

Mr. Speaker, we must continue to protect the people who serve us every day. I applaud the Federal employees who dedicate their lives in making sure government is working on behalf of the American people.

I urge my colleagues to join me in supporting H. Res. 1187.
